## Did you know?

---

CDC estimates that **one in 48 black women** will be diagnosed with HIV in their lifetime.

**1 in 7 blacks/African Americans** with HIV are unaware they have it.

In 2017, **26%** of adult and adolescent blacks/African Americans who **received an HIV diagnosis were women.**

From 2009 to 2014, **84% of transgender people** diagnosed with HIV were transgender women.

*\*transgender specific data is limited.*
